* Show all important zones of porosity, detail of all cores, and all drill-stem tests, including depth interval tested, cushion used, time tool open flowing and shut-in pressures, and recoveries.

Attach drillers log or other acceptable log of well if available.
This Well Completion or Recompletion report and well log shall be filed with the Missouri State Geologist not later than 30 days after project completion.

SEP 09 2011

Dear Geological Survey:

We originally applied to drill a gas well and was approved to do so on 2-10-2011 (copy ^{of OGC-3} enclosed). This well was recently drilled and turned out to be unusable due to very low gas volume. We plugged this well with cement on ~~2~~ 9-6-2011 and have submitted Form OGC-7 in this packet. (concrete receipt also enclosed)

We are also hoping to re-apply to try drilling a second well in hopes that it will have better luck and have also submitted in this packet forms OGC-1, OGC-2A, OGC-3, and OGC-4. Some of these forms are simply repeats of from our original application.

One question I do have is do we need to have the well-driller turn in form OGC-5 (completion of drilling) also or is form OGC-7 (plugging record) in lieu of submitting OGC-5?

Sincerely,

Paul A Bockelmann & Allen D. Bockelmann

WARNING: INJURIOUS TO EYES, CAUSES SKIN IRRITATION READ THIS WARNING BEFORE USING. Contains Portland Cement.

Contact with wet (unhardened) concrete, mortar, cement or cement mixtures can cause skin irritation, severe chemical burns, or serious eye damage. Avoid contact with eyes and skin. Wear waterproof gloves, a fully buttoned long-sleeved shirt, full length trousers, and tight fitting eye protection when working with these materials. If you have to stand in wet concrete, use waterproof boots that are light at tops and high enough to keep concrete from flowing into them. If you are finishing concrete, where knee pads to protect knees. Wash wet concrete, mortar, cement or cement mixtures from your skin with fresh, clean water immediately after contact. Indirect contact through clothing can be as serious as direct contact, so promptly rinse out wet concrete, mortar, cement or cement mixtures from clothing. Seek immediate medical attention if you have persistent or severe discomfort. In case of eye contact, flush with plenty of water for at least 15 minutes. Consult a physician immediately.

KEEP OUT OF REACH OF CHILDREN

USER AGREES TO CONVEY THIS WARNING TO ALL PERSONS WHO MAY PURCHASE, USE OR COME IN CONTACT WITH WET (UNHARDENED) CONCRETE, MORTAR, CEMENT OR CEMENT MIXTURES. Concrete contains crystalline silica in concentrations greater than 0.1% Respirable silica is considered by IARC and NTP to be a human carcinogen. Crystalline silica in wet concrete is not respirable and does not pose a hazard when the concrete is in its unhardened state. However, respirable dust can be generated by grinding, sawing, drilling, breaking, etc. hardened concrete. Wear an appropriate NIOSH-approved respirator during these activities.
